Circle Discount Program

A special 10% discount has been created for eligible clients sharing a common workplace or social group. We call this the “circle discount”. If you can gather together a group of co-workers, building residents or members of your social club or coffee group, then simply provide us with a name for your group and we'll keep track of your group's eligibility for this extra discount.

- Eligibility is calculated by adding together the number of booked days for each group member for the week. I.e. 6 group members with full time enrolment (5 days per week) would have 30 booked days. Groups with at least 30 booked days per week will be eligible for the circle discount.
- Only booked sessions are included in eligibility calculations, i.e. no casual attendance.
- Discount eligibility is calculated and confirmed at the end of every month based on weekly bookings for the following month.
- All members of an eligible group receive a 10% discount off the normal parental fee.
- Each client can only belong to one group.
- There are no charges or fees for belonging to a group.
- A group member with multiple children booked will also receive the sibling discount in recognition of each child's booking.
- Groups cannot have more than 15 members. A second group may have to be created for large workplaces.
- All members of a group must have a common workplace or legitimate social group.
- Each group has its own responsibility to ensure it maintains enough members and booked days each month to remain eligible.
- Discounts and promotions cannot accumulate to more than 20% of normal fees.
